MIRAGE RUSTICO

TECHNICAL DATA

CHARACTERISTICS

MIRAGE RUSTICO is a fine decorative finish for interiors, based on acrylic resin, metallic effect fillers and fine marble grains that allow to obtain chromatic solutions with a "rustic" effect from the changing play of light.

TECHNICAL DATA

Base colour: gold and silver.

Yield: 100 - 150 gr per sqm approx.

Dilution: 5 - 10% with clean water.

Features: indoor product.

Packaging: 5 kg and 1 kg.

Mirage Rustico can be coloured with tinting dyes.

Store in a dry place at temperatures between + 5 ° and + 35 ° C.

The shades reproduced here can only be applied indoors and are to be considered indicative.

SURFACE PREPARATION

on a smooth, healthy and dry surface, apply 2 coats of Quarz Decor 306 white or in the same colour as the finish by brush or roller.

APPLICATION

Apply a first coat unevenly with the Mirage Rustico brush.

After about 1-2 m². depending on the absorption and temperature, go over the surface with an unloaded brush, thus creating the desired effect.
